## HOST A COURSE WITH PSIA

---

### What is hosting?

Playground safety training is a common request from education departments, councils and playground companies in Australia.

PSIA are able to offer CPSIA training courses at your premises and enables you with up to 15% discount on all registrations and additional saved costs on accommodation and travel for your staff if they were to attend an alternate training location.

### What are the requirements?

At minimum we require 10 registrations to host a CPSIA course, these registrations can be from just your organisation or accumulated from inviting others from your area to attend the course. If required, PSIA will assist in reaching minimum numbers for the course, please note your request to host without fulfilling minimum numbers may require up to 4 months to garner numbers and confirm the course.

You will need to provide; a training room (air conditioned/heated) that can comfortably fit 10-25 (approx.); assist our trainer with some audio and visual aids; have a data projector, screen and white board; and nominate 8 playgrounds in close proximity to the venue (non-compliant and compliant) for the trainer to use in the practical and assessment components of the course.

### What course can I host?

- Level 1 Routine Playground Safety Inspector: 1 day course (Monday)
  - Separate course from our Level 1-2 and 1-3
- Level 1-2 Operational Playground Safety Inspector: 3 day course (Tuesday – Thursday)
